A mad dog passed through this community a few days ago and bit several dogs and seared some of our people almost out of their wits. We have heard of one who was chasing the dog and the dog and the dog turned and started towards him, whereupon he set his gun down against a tree, and immediately afterward he was seen scrambling to a place of safety among the branches of the same tree. All of the dogs that were bitten have been killed.

Sale of Accounts.

ALL those interested will please take notice that it becomes our duty by order of the Stockholders of the Co-Operative Alliance Store to sell at public outery in front of Court House on SALESDAY IN MARCH all uncollectable accounts due the Store. This is indeed a very disagreeable task, but what else could be done? The business is sold out and the purchase money paid in, and all that now delays a settlement with the Stockholders is the collection or disposition of these accounts, and every one on reflection will see that the Store has made too great a sacrifice in closing out the Goods to be able to stand the expense of keeping a book keeper or two for months trying to collect accounts, many of which are so small that the actual expense incurred in trying to collect them would perhaps amount to more than the aggregate sum realized. Hence the necessity of disposing of all the remaining assets of the corporation by selling them as above mentioned. Besides, we do not know of a single individual that owes the Store who could not get up a good Note perfectly acceptable to either Bank. So if they ever intend to pay their honest debts no hardship would be worked on any one. Yours very truly,

R. S. HILL, Manager.

We have just received word from our buyers, who have been in the New York market for nearly three weeks making their selections for the Spring trade, that they will return during the latter part of this week. You will no doubt wonder at them having remained so long this season. We have instructed then to do so-to study the market leisurely and carefully—and they report having made the best selec. tion that they have ever made. The Goods are beginning to arrive, but not enough of them as yet to elaborate on them.

We will tell you more a bout them in the next few days.
